SUPPLEMENTARY INFORMATION: This proposed information collection previously published in the Federal Register on September 14, 2021, at 86 FR 51177 with a 60-day public comment period. No comments were received. The purpose of this notice is to notify the public that FEMA will submit the information collection abstracted below to the Office of Management and Budget for review and clearance.

This package is a revision to the collection titled the Threat and Hazard Identification and Risk Assessment (THIRA) - Stakeholder Preparedness Review (SPR) Unified Reporting Tool under OMB Control Number 1660-0131. The Post-Katrina Emergency Management Reform Act of 2006 (PKEMRA) (Pub. L. 109-295), as amended by the Implementing Recommendations of the 9/11 Commission Act of 2007 (Pub. L. 110-53), established an annual requirement for the 56 states and territories to submit a State Preparedness Report, at 6 U.S.C 752(c). Because this reporting now includes States, Tribes, territories, and urban areas, FEMA has revised the name of the collection as the Stakeholder Preparedness Review (SPR). States, Tribes, territories, and urban areas receiving non-disaster preparedness grant funds administered by DHS submit the SPR annually, and this encompasses the requirements of the previous State Preparedness Report, while reflecting the updated methodology reporting needs. The legislation requires a report on current capability levels and a description of targeted capability levels from all States, Tribes, territories, and urban areas receiving non-disaster preparedness grant funds administered by DHS. Each report must also include a discussion of the extent to which target capabilities identified in the applicable state homeland security plan and other applicable plans are unmet, and an assessment of

resources needed to meet the preparedness priorities established under 6 U.S.C. 752(c), including: (i) an estimate of the amount of expenditures required to attain the preparedness priorities; and (ii) the extent to which the use of Federal assistance during the preceding fiscal year achieved the preparedness priorities. To meet this requirement, States, Tribes, territories, and urban areas first identify capability targets through THIRA and then assess against these targets in the SPR. Through the SPR, these jurisdictions estimate their current capabilities, identify and describe gaps between current capabilities and targets, indicate their intended approach for addressing gaps in the future, and report on the impact of Federal grant dollars in building and sustaining capabilities. It is also important to note that completing the THIRA and SPR are allowable expenses under the grant awards.

Collection of Information

Title: Threat and Hazard Identification and Risk Assessment (THIRA) – Stakeholder Preparedness Review (SPR) Unified Reporting Tool.

Type of Information Collection: Revision of a currently approved information collection.

OMB Number: 1660-0131

FEMA Forms: FEMA Form FF-008-FY-21-106, Threat and Hazard Identification and Risk Assessment (THIRA) / Stakeholder Preparedness Review (SPR) Unified Reporting Tool (formerly FEMA Forms 008-0-19 and 008-0-20); FEMA Form FF-008-FY-21-107, THIRA/SPR After Action Conference Calls (formerly FEMA Form 008-0-23).

Abstract: The assessment is structured by the 32 core capabilities from the 2015 National Preparedness Goal. States, territories, urban areas, and tribes provide information on capability targets, their current capability levels and capability gaps for each core capability. Respondent States, Tribes, territories, and urban areas gather the

information and complete the THIRA and SPR following the “Comprehensive Preparedness Guide (CPG) 201, Third Edition.”
